MINISTÉRIO DA EDUCAÇÃO E CIÊNCIA

PROGRAM

15th December

9h15-11h15	THEMATICAL SESSION 4 The entanglement of Colonial and Tropical Medicine
11h15-11h30	Coffee break
11h30-13h15	THEMATICAL SESSION 5 From tropical to global concerns: trajectories of services and biomedical research
13h15-14h15	Lunch
14h15-16h15	THEMATICAL SESSION 6 Global health, epidemiology and public health policies
16h15-16h30	Coffee break
16h30-17h00	Closing Session
17h00-18h00	Visit of exhibition 'Health in the Tropics: the collections of the Institute of Hygiene and Tropical Medicine'

14th December

THEMATICAL SESSION 1

Tropical Medicine: perspectives on the evolution and circulation of medical knowledge

Chair: Jorge Seixas (IHMT-UNL)

Discussant: Jaime Benchimol (FioCruz/Casa Oswaldo Cruz)

Matheus Alves Duarte da Silva (École des Hautes Études en Sciences Sociales-EHSS, Paris) and Daniel Dutra Coelho Braga (Instituto de História, Universidade Federal de Rio de Janeiro) 'The Tropics without the Tropical: French Naval medicine on the threshold of tropical medicine'

Heliel Gomes de Carvalho (Centro Universitário de Anapolis-Universidade Federal de Goiás) and Sandro Dutra e Silva (Universidade Estadual de Goiás) 'The South American Evangelical Union and its impact upon tropical medical missionaries in Central Brazil'

Carlos Roberto de Oliveira (Departamento de Saúde da Comunidade, Universidade Federal de Rio de Janeiro) 'Cholera in Nineteenth Century Bahia and the Bahian Tropical Medical School'

Carlos António Menezes de Lemos (CHLN, Hospital de Santa Maria, Lisbon) 'Into Africa: two different perspectives on tropical diseases'

THEMATICAL SESSION 2

The affirmation of Tropical Medical Schools, experts and collections

Chair: Bárbara Direito (CIUHCT-FCT-UNL)

Discussant: Odete Afonso (IHMT-UNL)

Jane Costa and Magalí Romero de Sá 'The Entomological Collection of the Oswaldo Cruz Institute/Oswaldo Cruz Foundation: 115 years of history on biodiversity and infectious disease'

Rita M. Lobo (CIUHCT-UNL) 'Tropical medicine and medical entomology in Portugal: the historical entomological collection of the Instituto de Higiene e Medicina Tropical (1938-1970)

Paulo G. Almeida and Teresa Novo (IHMT-UNL) IHMT's insect collections: from tropical medicine to (re)emerging vector borne diseases in global health

João Lourenço Monteiro (CIUHCT-UNL) 'Invisible Women: a new perspective on medical networks in the Institute of Tropical Medicine (IMT), 1953-1966'

THEMATICAL SESSION 3

Health systems, endemic diseases and control strategies

Chair: Philip J. Havik (IHMT-UNL)

Discussant: Filomena Pereira (IHMT-UNL)

Mónica Saavedra (CRIA-ISCTE-UL) 'Malaria control and tropical medicine in former Portuguese India'

João Dinis de Sousa (Katholieke Universiteit Leuven, GHTM-IHMT)) and Anne-Mieke Vandamme (Katholieke Universiteit Leuven/GHTM-IHMT)) 'Sexually transmitted diseases and their treatment in colonial Leopoldville (1920-1960)'

Bernardo Pinto da Cruz (FCSH-UNL) 'Vaccination and resettlement in Angola (1955-1974)'

Josh Galjour (University of Geneva) 'Chronic political instability and the implementation of the HIV-AIDS response in Guinea-Bissau: a case study of the intersections of politics and epidemiology (2000-2015)'

15th December

THEMATICAL SESSION 4

The entanglement of colonial and Tropical Medicine

Chair: Sónia Dias (IHMT-UNL)

Discussant: Philip J. Havik (IHMT-UNL)

Isabel Amaral (CIUHCT-UNL) 'Portuguese physicians overseas and the consolidation of tropical medicine in the twentieth century: case study of Rafael António de Sousa Caixeiro (1923-1990)

Vanessa Pedrotti (Institut des Mondes Africains, Université Aix-Marseille) 'The St. Anthony' Leprosarium of Harär: a harbinger of Ethiopian modernity and missionary ideals (1901-1965)'

Bárbara Direito (CIUHCT-UNL) 'The relationship between human and veterinary health in twentieth century colonial Mozambique: a view from the colonial health system'

Simplice Ayangma Bonoho (University of Geneva) Francisco José Carrasqueiro Cambournac and his role in the WHO's Regional Office for Africa (AFRO), 1946-1965

THEMATICAL SESSION 5

From tropical to global concerns:trajectories of pathologies and biomedical research

Chair: Rita M. Lobo (FCT-UNL)

Discussant: Sofia Cortes (IHMT-UNL)

Mohsin Sidat (Faculty of Medicine, Universidade Eduardo Mondlane, Maputo) 'Diagnostics of tropical micoses in Mozambique: past, present and future'

Jaime Benchimol (FioCruz/Casa Osvaldo Cruz) 'Brazil and leishmaniasis: diseases from the tropics that become global risk'

Denis Guedes Jogas Junior (FioCruz/Casa Osvaldo Cruz) 'Leishmaniasis and its vectors: building and circulating knowledge on Phlebotomine sand flies on a global scale'

THEMATICAL SESSION 6

Global health, epidemiology and public health policies

Chair: Isabel Amaral (FCT-UNL)

Discussant: Silvana Belo (IHMT-UNL)

Filomeno Fortes, Virgílio do Rosário (former IHMT), Dinora Lopes (GHTM-IHMT) and Philip J. Havik (GHTM-IHMT) 'Neglected Tropical Diseases (NTDs) past and present: the case of Angola'

Carmen Máscaro-Lazcano and Emília V. Noormohamed (Faculty of Medicine, Universidade Eduardo Mondlane, Maputo) and Carmen Mascaró-Lazcano (Dept. of Medicine, University of California) 'The history of onchocerciasis in Mozambique: past, present and future'

Mélanie R. Maia and Luís V. Lapão (GHTM-IHMT) 'The health organisation of Cape Verde: a global history approach (1960-1980)'
